RightsCon
Brussels 2017
Programme

29-31 MARCH, 2017
CROWNE PLAZA BRUSSELS
LE PALACE

Welcome to RightsCon Brussels!

This is the sixth conference in the RightsCon Summit series — the first event took place in 2011, when the Arab Spring was revealing both the opportunities and the wrath of new technology.

Having taken RightsCon from North America to SouthEast Asia to Latin America, we are thrilled to finally be in the heart of Europe.

As an international human rights organization working on the global internet, it's only fitting that Access Now, the hosts of RightsCon, should organise the event in Brussels at this pivotal moment.

Europe is a standard setter, a contested region, and a home to almost 750 million people. It is a place where our digital rights are both protected and abused, where democratic principles are being weakened and, at the same time, a beacon of hope for so many.

RightsCon Brussels represents more than a thousand experts from around the world: business leaders, civil society advocates, policy makers, lawyers, bloggers, technologists, and users gathered together to tackle the most pressing issues at the intersection of technology and human rights.

This year, we've put together a programme that highlights challenges which have burst onto the headlines since last year's event in Silicon Valley, and shines a new light on debates which have been raging since before new technologies were ever in our pockets.

To help you navigate more than 250 sessions, we're introducing 20 Programme Tracks. Use the tracks to follow a specific theme, challenge, or opportunity from start to finish, from diagnosing the problem to identifying best practices and solutions. Or jump around the programme and pick and choose as you go.

We hope you enjoy the evening parties, the side events, the private tracks, and, most of all, the unique assembly of so many incredible, dedicated, and skilled practitioners.

For more information on each session, including descriptions and speakers, please check out our online programme here: **rightscon.org/program/**.

As the world furrows it's brow, let's use the next three days to carve out the future we want, and the strategic pathways we need to get there.

Access Code: rightscon**

This year's RightsCon includes **20 Programme Tracks** that wind their way through the official schedule. Each of the Tracks listed below are a roadmap of sessions focused on a particular theme that you can follow throughout the conference.

Participate from start to finish, moving the discussion from 'what's the problem' to finding best practices and solutions. Or join a track at any point along the way, and then hop over to another track of interest as you wish.

The schedule starts on page 18 of the programme.

WIFI

Network: Crowne-Plaza-Free-Internet
Access Code: rightscon

Wireless brought to you by **private**internetaccess™

To connect to the WiFi:
(1) Click to connect to the network "Crowne-Plaza-Free-Internet." (2) Open your browser, the welcome page of Crowne-Plaza-Free-Internet should now appear. (3) In the 'Meeting & Event Guest' section, login using the access code **rightscon**.

This is a "device at ease" event. Given the large numbers, we ask that you do not overwhelm the network (e.g. using your own data plan can help). Importantly, remember to take appropriate steps to protect your device if using the public network.

DIGITAL SECURITY CLINIC

Hosted by the Access Now Digital Security Helpline.

Drop by our Digital Security Clinic or make an appointment with us if you have questions about your own digital security.

Located in the Access Now Lounge (First Floor), this clinic will run for the length of the conference.

CODE OF CONDUCT

RightsCon is a special event that brings together hundreds of people from around the world to discuss the future of the open internet. To ensure that the conversations and experiences at RightsCon are respectful, honest, and open, please read the RightsCon Code of Conduct at **https://www.rightscon.org/event-info** in the FAQ section. Here you will also find Access Now's Anti-Harassment Policy, which we take seriously and will adhere to strictly.

MAXIMISE YOUR EXPERIENCE

Key **#RightsCon** tweets will be translated through **@rightscon3rabi (Arabic)**, **@rightscon2es (Spanish)**, and **@rightscon2fr (French)**, thanks to Meedan and Global Voices Lingua.

Follow **@RightsCon** for more details. You can also follow **#KeepItOn** to get first-hand news from the #KeepItOn Summit and join the global efforts to fight internet shutdowns.
